ABOUT ME

Master's student in Informatics, specialising in Information Design, with experience working on web, design and multimedia projects. I am interested in areas where technology, design and practical problem-solving come together. Through my studies, I have worked with web technologies, UX/UI design, Adobe tools, 3D content, as well as the basics of network and server administration. I am open to exploring new fields and learn quickly through hands-on work.

EDUCATION

Ruđer Bošković Technical School, Zagreb 2017 – 2021
Computer Technician Zagreb

University of Applied Sciences Zagreb (TVZ) 2022 – 2025
Bachelor's Degree in Informatics, Information Design Zagreb

University of Applied Sciences Zagreb (TVZ) 2025 - Present
Master's Degree in Informatics, Information Design Zagreb

SKILLS

Design and Multimedia

Adobe Photoshop · Illustrator · Premiere Pro · Figma · 3D modelling · photo editing · video editing

Web and Programming

HTML · CSS · basic JavaScript · XML · basic SQL · C · Python · Unity · basic C# scripting

IT

Basic network and server administration · Windows Server · software installation and configuration · 3D printer operation

Other

Microsoft Office · Google Workspace · teamwork · independent problem-solving · quick adoption of new tools

PROJECTS

CityScout – UX/UI project

Development of user experience, user flows, wireframes and an interactive prototype in Figma.

Web projects – TVZ

Development of front-end solutions using HTML, CSS and basic JavaScript.

Multimedia Projects

Video editing and post-production, photo editing and creation of digital visuals using Adobe tools

MuTaTIoN – Survival Horror Game (Unity)

Solo-developed survival horror prototype built in Unity, featuring level design, exploration, interactive elements and core gameplay mechanics.
